----------	----------	----------	----------	----------	----------	----------

- Risk vs return is based on past performance and is not a reliable indicator of future performance.
- Category 3 classification is based on historic fluctuations in the fund price.
- Category 1 classification does not mean that the investment is risk-free.
- Risk classifications are not a target or guarantee and may change over time.

The risk classification of the fund may not take account of all risks. The prospectus contains a detailed description of all potential risks. The following risks do not impact directly on this classification, but may nonetheless be relevant to the fund:

- **Counterparty risks:**
The fund may conduct transactions with various counterparties. If a counterparty goes bankrupt, they may be unable to satisfy the fund's outstanding claims or to satisfy them in full.
- **Credit risks:**
The fund may invest some of its assets in bonds or money market instruments or sight deposits. If the issuer or the counterparty to the position goes bankrupt, the position may lose all or part of its value.
- **Liquidity risks:**
There is a risk that a position cannot be sold in time at a reasonable price. This risk may also lead to a suspension of unit certificate redemptions.
- **Derivative risks:**
The fund only uses derivatives for the purpose stated above under "investment policy". Although they may offer the chance of a greater return, there is also a greater risk of loss. Using derivatives for hedging purposes may also reduce the chances of making a return on the fund.
- **Operational risks:**
The fund may be the victim of fraud or other criminal activity. It may sustain losses as a result of misunderstanding or error by management company staff or external third parties or suffer the impact of extreme events (i.e. a natural catastrophe).
- **Sustainability risks:**
Risks in the area of ESG factors (Environment, Social, Governance) are events whose occurrence could have a significant negative impact on the performance of a fund investment. As these do not represent a specific type of risk, they are usually manifested in other types of risk (e.g. credit risk, etc.).
- **Depository risks:**
Assets held by a depository may be at risk of loss due to bankruptcy, negligence or misconduct on the part of the depository or a sub-depository.

Costs

The fees charged are used for the purpose of managing the fund. They include fund unit sales and marketing costs. The costs charged will reduce any increase in value.

One-off pre- and post-investment costs:

Front load fee:	0,00 %
Redemption fee:	0,00 %

These are the maximum rates that will be deducted from the amount which you invest either prior to your investment or prior to payment. Your broker can advise you of the current fees.

Costs deducted from the fund during the year:

Running Costs:	0,63 %
-----------------------	--------

"Running Costs" are calculated based on the figures for the last financial year ending on 30.11.2021. "Running Costs" include management fees and all fees charged in the previous year. Transaction costs are only included in "Running Costs" if charged by a company associated with the fund (e.g. depository bank). "Running Costs" may vary from year to year. The costs included "Running Costs" are explained in the current financial report under "Expenditure".
